### ABE:

I am a highly motivated individual that loves his computer. Not a geek, but I've just found something that I really enjoy doing (so maybe a little).

The prospect of the types of work I can get involved in within the vfx, individually and as a collaborative team I find is really exciting.

I'm eager to keep learning and developing as a CG artist and I believe I have what it takes to make the existing pretty pictures in the world even prettier.

## 2 people have recommended Ben

"Ben was a superb designer and visualiser, with an excellent eye for detail and getting it right. Reliable, fun and a good team player in the design studio and in front of top clients such as Maybelline New York and L'Oreal. Great work and a great guy. I would not hesitate to employ Ben again should he decide to go back into our line of work! It's a much quieter place now."

— **Charles Freestone**, was Ben's client

"Ben is a talented and hardworking Digital Effects artist. During his time at Bournemouth University studying for his Masters in Digital Effects, he progressed very well, making professional and creatively dynamic pieces of work. He will do exceptionally well in whatever company employs him."

— **Phil Spicer**, taught Ben at Bournemouth University

HOPE TO HEAR FROM YOU SOON..
